SERIAL NO. 4464

Belle Maire and Squirrel Canyons.

APPLICATION FOR PERMISSION TO CHANGE THE PLACE OF USE OF THE WATERS OF
THE STATE OF NEVADA.Date of first receipt and filing in State Engineer's Office. JUN 11 1917
Returned to applicant for correction. JUN 16 1917

The undersigned Eli Cann of Fallon, Churchill County Nevada hereby makes application to change the place of use of the waters heretofore appropriated and beneficially used as heretofore shown.

1. The source of the water supply proposed to be changed is the combined flows of Big Belmaire Creek, Squirrel Creek and an unnamed creek or stream on the easterly slope of Stillwater Mountains.

2. The quantity of water desired to be changed is 1.5 cubic feet per second.

3. The water is to be used for irrigation, domestic, and stock watering purposes.

4. The water is to be diverted from its source at the following point: In the S.W. $\frac{1}{4}$ of the N.W. $\frac{1}{4}$ of sec. 29 T. 24 N. R. 36 E. M.D.B. & M.

5. The existing point of diversion under the former appropriation is the same place.

6. The water desired to be changed has been beneficially used and continuously used upon about 15 acres of the following described lands. S.E. $\frac{1}{4}$ of N.W. $\frac{1}{4}$, and N.E. $\frac{1}{4}$ of S.W. $\frac{1}{4}$ sec. 29 T. 24 N. R. 36 E. M.D.B. & M.; the exact 15 acres I cannot now state.

7. The number of acres heretofore irrigated is about 15 acres.

8. The number of acres proposed to be irrigated is 80 acres.

9. The description of the land proposed to be irrigated is S.E. $\frac{1}{4}$ of N.W. $\frac{1}{4}$ and N.E. $\frac{1}{4}$ of S.W. $\frac{1}{4}$ Sec. 29 T. 24 N. R. 36 E. M.D.B. & M..

10. The estimated cost is about \$1000.00.

11. The estimated time required to construct the works is about one year.

12. Irrigation will begin about April 1 and end about Oct. 1 of each year.

13. The water has heretofore been used during the months of April, May, and part of June of this year only.

14. Remarks: The land I took up is the S.E. $\frac{1}{4}$ of N.W. $\frac{1}{4}$ and N.E. $\frac{1}{4}$ of S.W. $\frac{1}{4}$ Sec. 29 T. 24 N. R. 36 E. M.D.B. & M.. I found this could be better irrigated than the land described in the Water Permit No. 4111; and as this is the adjoining 80 acres the land described in the original permit was never used and water was never placed thereon. I made a mistake in thinking the land described in the water permit was the land that could be irrigated when in fact it was not. It is pretty hard to get the exact eighty without a surveyor, which I did not have when I first made the application for the water, thought I could rely upon maps.

AMENDED

SERIAL NO. 4464

APPLICATION FOR PERMISSION TO CHANGE THE PLACE OF USE OF THE WATERS
OF THE STATE OF NEVADA, GRANTED UNDER PERMIT NO. 4111.

Date of first receipt and filing in State Engineer's Office. JUN 11 1917
Returned to applicant for correction JUN 16 1917

Corrected application filed JUN 24 1917

The undersigned Eli Cann of Fallon, Churchill County, State of Nevada, hereby makes application for permission to change the place of use of the waters heretofore appropriated under application and permit No. 4111.

1. The source of the water supply of the proposed change is the combined flow of Big Belmaire Creek, Squirrel Creek and an unnamed creek or stream on the easterly slope of Stillwater Mountains.
2. The quantity of water desired to be changed is 1.5 cubic feet per second.
3. The water is to be used for irrigation, domestic and stock watering purposes.
4. The water is to be diverted from its source at the following point: In the SW $\frac{1}{4}$ of NW $\frac{1}{4}$, Sec. 29, T. 24 N., R. 36 E., M.D.B. & M.
5. The existing point of diversion under the former appropriation is the same place.
6. The water desired to be changed under permit No. 4111, was to have been used upon the following described lands: SW $\frac{1}{4}$ NW $\frac{1}{4}$, and NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 29, T. 24 N., R. 36 E., M.D.B. & M.,
7. The number of acres proposed to be irrigated heretofore is 80.0 acres.
8. The number of acres proposed to be irrigated is 80.0 acres.
9. The description of the land proposed to be irrigated is described as follows: SE $\frac{1}{4}$ of NW $\frac{1}{4}$, and NE $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 29, T. 24 N., R. 36 E., M.D.B. & M.,
10. The water will be diverted by means of a dam, stored in small reservoirs, and conveyed to the lands by means of ditches and laterals.
11. The estimated cost of the proposed works is \$1000.00.
12. The estimated time required to construct the works is one year.
13. Irrigation will begin about April 1st and end about October 1st of each year.
14. Remarks: The land I took up is the SE $\frac{1}{4}$ of NW $\frac{1}{4}$, and NE $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 29, T. 24 N., R. 36 E., M.D.B. & M., I found this land could be better irrigated than the land described in Permit No. 4111, and as this is the adjoining 80 acres the land described in the original permit was never used and water was never placed thereon. I made a mistake in thinking the land described in permit No. 4111, was the land that could be irrigated when in fact it was not. It is pretty hard to get the exact eighty without a surveyor, which I did not have when I first made the application for the water, thought I could rely upon maps.

Serial No. 4464.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: This permit, to change the place of use of waters granted under permit No. 4111, is issued with the same limitations and conditions imposed in said permit No. 4111. The amount of water to be changed ~~shall~~ shall be limited to the amount which can be applied to beneficial use, and not to exceed Eight-tenths (0.8) cubic feet per second.

Actual construction work shall begin on or before May 28, 1918.

Proof of commencement of work shall be filed before June 28, 1918.

Work must be prosecuted with reasonable diligence and be completed on or before May 28, 1919.

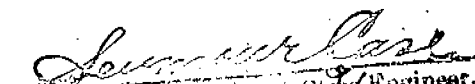

Proof of completion of work shall be filed before June 28 1919.

Application of water to beneficial use shall be made on or before May 28, 1921. Proof of the application of water to beneficial use must be filed with State Engineer on or before June 28, 1921.

WITNESS MY HAND AND SEAL THIS 28th day of September, 1917.

State Engineer.

Cancelled JAN 24 1919 because of failure of
applicant to comply with provisions of permit.

State Engineer.
